

Thank you for taking the time to read this e-mail. I am a 40+ professional male who travels extensively by car. I am a subscriber to XM RADIO and one of the reasons is for the up to date and constant traffic and weather report. This informatioon is not always avaiable on regular radio stations. I find it extrmely helpful. I humbly request that you do not make any changes that would affect my access to this information. This is a service that I glady am willing to pay for. Please do not give in to the pressure from large and powerful media corporations. They have the opportunity to compete, but choose not to. I am urging to to please reject NAB's petition 04-160.Thank You.
Sincerely, Jim Wright
